KEEPERS OF THE SECRET: The Annual Staff of Torrance high school are deeply involved in publication of the school yearbook which will offer something new and different in the way of design. Keeping information about the new design confidential until its appearance on June 1 are members of the staff which includes: (l-r) Gail Lightfoot, Sally Jo Reed, John Sherfy, Larry Macaray, instructor; and Jim Kasterko, assistant editor. 1956 Torrance High Annual Staff Plans 128-Page Surprise For Student Body

By NORALEE BENEDICT

Annuals come and Annuals go with little change, but this year's Annual Staff at Torrance high school is planning a 128 page surprise for the student body.

The 1956 Annual will strike a new note with its cover and design. The appearance of the book will remain a closely guarded secret until it appears on June 1. The only hint which Larry Macaray, instructor of the Annual class, would give was that the book will be "contemporary... very."

The Annual Staff includes: Judy Stolley, John Sherfy, Sally Jo Reed, Jim Kasterko, assistant editor; and Gail Lightfoot.

Others are: Rudy Whitcomb, Maryann Slack, June Moore, Bill Meacham, Ernie Thompson, Marilyn Linscott, Dorothy Kline, Sharon Anderson, Danny Bridges, Sharon Cluckey, Gary Cooke, Bob Harris, editor; Richard Kai, and Pat Kirkpatrick.

Eight in One
Those on the staff receive a varied training through the course of getting the book together. Stimulation of creative ideas is first on the list as the staff begins the year deciding on the theme for the entire publication.

Art comes into play in designing the sketches reflecting the theme for each of the five divisions: administration, classes, organization, activities, and sports.

The layout work necessary in making up page dummies is a good background for students who wish to enter advertising fields in the future.

Although the individual pictures of each student are taken by a professional photographer, Crotty Studio, and some activity pictures will be obtained from the files of local newspapers, there are still school projects to be covered by student camera experts.

Salesmanship training is given both in selling the advertising which will appear in the book and in selling the Annual to the student body.

Business management is a consistent job, beginning with the staff obtaining bids from various printers and deciding upon the best one and continuing with handling receipts from sales. The staff mans "The Shack," the building on the campus from which all activity sales are made, until all orders have been taken.

Although they are more informal branches of learning, the staff also becomes proficient in tracking down names to go with hundreds of pictures and in learning to keep secrets through the confidential nature of the design and theme.

Guiding Spirit
Larry Macaray who teaches drawing, painting, and crafts in addition to the Annual class, is spending his first year at Torrance high. He taught previously at Long Beach Polytechnic high school and was in the field of commercial advertising for nine years.

"We know the student body is going to be surprised by the Annual," he said, "and we hope they will be pleased with it. The world is changing so rapid-

ly that students today face demands that have never been made on young people of any other generation.

"We thought the Annual, which is the record of this year, should reflect this change in the modern world and the ability to meet it," he said.

Two prizes each, for each of three age groups, will be awarded to the lucky children finding most eggs.

Hills Civic Association Plans Hunt

Vernal Peltz, entertainment chairman for the Torrance Hills Civic association, reminded members that the scheduled Easter egg hunt will take place this coming Saturday, March 31.

The hunt will be held 200 yards inside the entrance to the Empty Saddle club at 1 p.m.

All children of the members and residents of the general area are welcome to this Easter vacation event, Peltz announced.

Two prizes each, for each of three age groups, will be awarded to the lucky children finding most eggs.

Anyone desiring more information may contact Peltz at DA. 6-6863.

How to Avoid ON THE JOB Eyestrain!

What's the visual range of your job? From close-up to 30 inches? From reading range to beyond arm's length? If you wear glasses, it is imperative that visual corrections precisely match your working pattern! Otherwise, eyestrain and loss of efficiency are inevitable.

THERE'S A NEW APPROACH to this problem—a solution that will help you feel better and work better! Let us make a "working area analysis" of YOUR job. From this data lenses can be ground in our own laboratories to provide exactly the corrections you need. Come in; let us demonstrate. No obligation.

PROSTATE TROUBLE GLAND WEAKNESS

Men past the age of 40 with any change in Urinary Habits, such as difficulty in passing of Urine, dribbling of Urine, Mental Confusion, High Blood Pressure and general physical weakness, should suspect some form of Prostate Disorder. Patients in whom the condition has been prolonged may fail to complain of these symptoms, since they have forgotten what it is to Urinate freely. Rectal examinations usually will reveal an enlarged gland. Most Prostate Glands are readily detected by this enlargement through Rectal examination. If Urine does not flow freely and naturally, infection arises and destruction of Kidney Tissue follows, the Blood is enervated with wastes, resulting in Uremia.

CONSTIPATION RELIEF IN 20 MINUTES

Dr. Daniel Colin Munro, M.D., says:
"I have never seen a case where a long series of enemas or irrigations failed to improve later bowel activity. I believe that the chief value of this therapy, however, is not in simply emptying the colon, but in cleansing degenerated and infected areas in the bowel wall, which are more or less common to all adults, areas through which infection and toxins enter the lymphatics and blood stream, carrying disease to our heart, liver, kidneys and other organs."
